

Joseph George Nessim

Full-Stack Web Developer

Cairo, Egypt | +20 122 355 3065 | josephgeorgenessim@gmail.com

[LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Web Developer with strong experience building scalable and secure web and mobile applications using React, Next.js, Node.js, and Express. Proven ability to deliver production-ready systems, optimize performance, and design clean APIs. Passionate about backend architecture, DevOps practices, and system design, with a solid foundation in networking and cloud computing.

EXPERIENCE

Full-Stack Web Developer (Part-Time) | [DBOTech](#)

Feb 2026 – Present

- Developed and maintained full-stack web applications using React, Node.js, and Express.
- Built dynamic dashboards and portal systems for managing structured content and user data.
- Designed and integrated RESTful APIs with secure authentication and role-based access control.
- Collaborated with cross-functional teams to deliver scalable and maintainable solutions.

Full-Stack Web Developer (Full-Time) | [Kinetics](#) — [Dubai, UAE](#)

Jul 2024 – Present

- Built and maintained full-stack applications using React, React Native, Node.js, and Express, serving 10+ clients.
- Automated workflows with REST APIs and third-party integrations, reducing manual effort by 40%.
- Implemented secure authentication (JWT, refresh tokens) and optimized APIs using MongoDB and PostgreSQL.
- Improved application performance by 30% through code optimization and lazy loading techniques.

TRAINING

Cloud Computing Trainee | [Huawei Talent](#) — [Cairo, Egypt](#)

Jul 2025

- Completed HCIA-Cloud Computing V5.0 training covering virtualization, cloud infrastructure, and storage systems.
- Gained hands-on experience deploying and managing cloud environments using Huawei technologies.

Network Engineer Trainee | [Huawei Talent](#) — [Cairo, Egypt](#)

Jul 2024 – Sep 2024

- Assisted in deploying network infrastructure for 3 regional branches using routing and switching technologies.
- Achieved HCIA-Routing & Switching certification and contributed to improving network reliability by 15%.

EDUCATION

Bachelor's Degree in Computer Science

2022 – Present (4th Year)

Benha University, Faculty of Computer Science — Cairo, Egypt

- Relevant Coursework: Web Development, Data Structures, Algorithms, Machine Learning

SKILLS

Programming Languages: C++, Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React, Next.js, React Native, Redux, Tailwind CSS, Bootstrap, SASS, Shadcn/ui

Backend: Node.js, NestJS, Express.js, MongoDB, PostgreSQL, REST APIs, JWT & Authentication

Tools & DevOps: Git, GitHub, Docker, Vercel

Core Concepts: API Design, Authentication Systems, Performance Optimization, Clean Code

Soft Skills: Problem-Solving, Communication, Collaboration, Time Management, Leadership, Adaptability

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) — Switching, Routing, and Wireless Essentials (2022–2023)
- HCIA-Routing and Switching Certification — Huawei Talent (2024)
- HCIA-Cloud Computing V5.0 — Huawei Talent (2025)

PROJECTS

CoinPulse — Real-Time Crypto Tracker ([GitHub](#))

2025

- Built a professional cryptocurrency tracking platform using Next.js 15+ (App Router), TypeScript, and Tailwind CSS 4.
- Integrated CoinGecko API with WebSocket-powered live price updates and an automatic polling fallback for seamless data delivery.
- Implemented a global search engine with debounced queries, Command+K shortcut, and full keyboard navigation.
- Rendered interactive candlestick charts via Lightweight Charts with multi-timeframe selection (1D, 1W, 1M, etc.).
- Displayed comprehensive market stats including Market Cap, 24h Volume, Circulating Supply, and Fully Diluted Valuation.

E-Commerce Website (Full-Stack)

2024

- Built using React, TypeScript, and Tailwind CSS (frontend) with Node.js, Express, and MongoDB (backend).
- Implemented user authentication, product management, shopping cart, coupon system, and Stripe payment integration.
- Designed a scalable backend architecture following secure API best practices.

Wallet Backend API

2024

- Developed using Node.js, Express, and PostgreSQL with a RESTful architecture.
- Features include transaction management, balance tracking, and user-scoped data handling.
- Implemented rate limiting with Redis and added logging and security middleware.

Movie App (React Native)

2024

- Built with React Native, Expo, and TypeScript with real-time movie data integration via external APIs.
- Optimized UI/UX with smooth animations and performance tuning.

Portfolio Website (Next.js)

2024

- Built using Next.js App Router, Tailwind CSS, and TypeScript.
- Implemented SEO optimization, dynamic routing, and responsive design.
