Cairo, Egypt

Profile

Full-Stack Developer skilled in React, Next.js, Node.js, Express, and React Native with a strong foundation in MongoDB, PostgreSQL, and modern frontend technologies (Tailwind, Bootstrap, SASS). Passionate about building scalable, secure applications with measurable impact. Strong problem-solving, collaboration, and adaptability, with additional expertise in networking and cloud fundamentals.

Experience

Full-Stack Web Developer

Kinetics, Dubai, UAE Jul 2024 – Present

- Built and maintained full-stack apps using React, React Native, Node.js, and Express serving 10+ clients.
- Automated workflows with REST APIs and third-party integrations, reducing manual work by 40
- Implemented secure authentication (JWT, refresh tokens) and optimized APIs with MongoDB and PostgreSQL.
- Enhanced app performance by 30

Cloud Computing Trainee

Huawei Talent, Internship — Cairo, Egypt Jul 2025

- Completed HCIA-Cloud Computing V5.0 training covering virtualization, cloud infra, storage, and networking.
- Deployed and managed cloud environments using Huawei technologies, gaining hands-on experience.

Network Engineer Trainee

Huawei Talent, Internship — Cairo, Egypt Jul 2024 – Sep 2024

- Assisted in deploying networks for 3 regional branches using routing and switching technologies.
- Achieved HCIA-Routing Switching certification; improved network reliability by 15

Education

Benha University, Faculty of Computer Science

Cairo, Egypt 2022 – Present (Bachelor's Degree, 4th Year)

- Relevant Coursework: Web Development, Data Structures, Algorithms, Machine Learning.

Ain Shams University, Faculty of Engineering

Cairo, Egypt Oct 2021 – Jun 2022

Skills

Programming: C++, Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks: React, Next.js, React Native, Redux, Tailwind, Bootstrap, SASS, Shadcn/ui

Backend: Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, JWT Refresh Tokens

Tools: Git, GitHub, Docker, Vercel

Soft Skills: Problem-solving, Communication, Collaboration, Time Management, Leadership, Adaptability

Certifications

- Cisco Certified Network Associate (CCNA) — Switching, Routing, and Wireless Essentials (2022–2023)
- HCIA-Routing and Switching Certification — Huawei Talent (2024)
- HCIA-Cloud Computing V5.0 — Huawei Talent (2025)

Projects

E-commerce Website (Full-Stack)

2024

- React + TypeScript + Tailwind (frontend), Node.js + Express.js + MongoDB (backend).
- Features: Authentication, categories, reviews, cart, coupons, checkout, Stripe payments.
- Deployed with backend security best practices and scalable architecture.

To-Do List App (Full-Stack)

2024

- Built with React (frontend) and Node.js + Express.js + MongoDB (backend).
- Implemented JWT authentication, password hashing, CRUD tasks, and user management.
- Focused on clean UI and backend security standards.

Portfolio Website with Next.js

2024

- Next.js App Router, Tailwind, Shadcn/ui, and TypeScript.
- Dynamic routing for projects and blogs, SEO optimization, dark mode.
- Deployed via Vercel for continuous integration and fast delivery.

Movie App (React Native)

2024

- Built with React Native, Expo, TypeScript, and NativeWind (TailwindCSS for React Native).
- Integrated TMDB API and Appwrite backend for real-time movie data.
- Features: Trending movies, search, detailed movie info, pull-to-refresh, smooth animations, cross-platform.

Wallet App (React Native)

2024

- Developed with React Native, Expo Router, React Navigation, and TypeScript.
- Features: User authentication, add/view transactions, balance summary, responsive UI.
- Backend integrated with Wallet API for secure financial operations.

Wallet Backend API

2024

- Node.js + Express.js + PostgreSQL (Neon) with RESTful API design.
- Features: CRUD transactions, user-scoped data, financial summaries, and rate limiting with Upstash Redis.
- Included logging (Morgan), environment-based configuration, and CORS support.
- Designed for scalability and multi-user support.
